**SABOHEMA AUTOMOTIVE LTD TAKES OFF IN INDIA**

**SaboHema Automotive Ltd.** it's a **brand new joint venture** undertaken with **Hema Engineering Industries Ltd** (a major Indian company that operates in various fields but specialises in original parts for the automotive and motorbike trade) and the italian company **Roberto Nuti Spa**, a benchmark company in the sector of top quality spare parts for industrial vehicles, has manufactured and distributed the **SABO** products for over 25 years: a range of more than one thousand shock absorbers for heavy duty transport. The aim of this new partnership is to produce various types of **shock absorber** for commercial vehicles at the new plant in **Gurgaon**, near New Delhi.

**Mr. Massimo Nuti**, general manager of the italian Company, says: «We are taking a necessary step in order to be able to compete with the Asian and Middle Eastern markets. In India we will produce a small range of products but in large quantities and we intend to offer these products to the first plant market».

Production will kick off in November - December 2009 and the idea is to reach full capacity at the start of 2010.

**The inauguration day will be in January**, immediatly after **Auto Expo 2010**. SaboHema Automotive, infact, will be at the exhibithion in New Delhi (5-11 January).
