

THE FUTURE IS INNOVATIVE. GET READY!

BE THERE AT

FUTURE TECHNOLOGIES PAVILION

The 15th Auto Expo 2020 Components, the largest auto components show in this part of the globe, is highlighting tomorrow's technologies, with a focused pavilion - Future Technologies. The intent is to provide a roadmap of safe, energy efficient and low emission systems for India, by displaying eco-friendly solutions & innovations for future mobility. The future is closer. Visit us today.

FUTURE READY TECHNOLOGIES

					
Charging stations	Upgraded hybrid and battery technology	Solar energy-driven charging stations	Car data collection and sharing	Artificial intelligence equipped smart cars	Upgraded refineries and fuel pumps

HIGHLIGHTS

- Curated and focused pavilion area
- Showcase of innovations and technology advancements
- Dedicated networking platform for decision-makers, to schedule and optimise business meetings before and during the event

EXHIBITOR PROFILE

- Artificial Intelligence
- Battery Management Systems
- Battery Manufacturers
- Charging Infrastructure
- Design, Engineering, IT & Automation for Automotive Sector
- Electric Components
- Electric Mobility Solutions
- Environment Friendly Fitments
- Hybrid Technologies
- Power Infrastructure
- Renewable Energy
- Safety Measures
- Solar Components
- Start-ups
- Testing & Pollution Control Equipment
- Weight Reduction Techniques

OTHERS FOCUSED PAVILIONS

- ACMA INNOVATION
- ACMA SAFER DRIVES
- BEARING
- GARAGE EQUIPMENT

15th AUTO EXPO 2020
COMPONENTS
6-9 FEBRUARY 2020
Pragati Maidan, New Delhi, India
